FINAL ACTION MEMORANDUM, NON-TIME CRITICAL REMOVAL ACTION AT
INSTALLATION RESTORATION PROGRAM (IRP) SITE 11 (DISPOSAL PITS), NASA
CROWS LANDING FLIGHT FACILITY, CROWS LANDING, CALIFORNIA

Dear Mr. Bloom:

Site 11, a former disposal pit, is located near the center of NASA Crows Landing and encompasses approximately 11 acres of land. As outlined in the above referenced document, the Site 11 removal action involves bulk excavation, transportation and off-site disposal of buried waste found in six areas of concern within the Site 11 disposal pit. In addition to being protective of human health and the environment, the removal of the waste at Site 11 will aid in facilitating the completion of the feasibility study for the site.

Based on our review of the information provided in the Action Memorandum, as well as all supporting documentation, the Department of Toxic Substances Control concurs with the removal action at IRP Site 11.

Sincerely,

Anthony J. Landis, P.E.
Chief
Northern California Operations
Office of Military Facilities
